HHH has created an organization that we believe fulfills the promise of health information on the Internet. We provide credible information, supportive communities, and in-depth reference material about health subjects that matter to you. We are a source for original and timely health information as well as material from well known content providers.

If, as they say, ‘an apple a day helps keep the doctor away’, consumers are increasingly looking for that apple online, in the form of reliable health information. According to the latest research, eight out of 10 Internet users have, at one time or another, searched for health info on the Web, in part because they feel their healthcare needs are not being adequately addressed by increasingly busy physicians.

The proper procedure of authentication will be provided for patients, doctors, employees, administrator(website). The payment option will be provided through PayPal to the patients for their health tests. The feedback of patients for particular doctors and patients will be maintained alongside. Graphical representation is provided on each panel of the website so as to have the comparison ratios of each vital particulars of the modules.

With the integrated, granular schema, real time notifications, excellent attachment management, simple and effective report generation, robust stable secured mysql (xampp) server and customizable dynamic theme the Heal Helping Hand is a one of a kind website. The information present in tabular form easy for comparative analysis is an instant hit with the users who want the prices in one look. The ease of navigation is a very important feature as even elderly patrons can find exactly what they are looking for.
